

Corporate Profile

Ye Thura Thet
Principal Analyst

June 2024

About Us

24/7 cyber fusion center, operating from 2,000 square feet office in MICT Park, Yangon, Myanmar. Established in 2014, Head quartered in Yangon, Myanmar.

- 2024 operations
 - 20+ SOC/MDR Subscribers
 - 1 TB Per Day Log Ingestion
 - 10000 Network & Endpoint Sensors
 - 60+ Security Assessment Projects

Security Operations

Detect, respond, and remediate cyber incidents using state-of-the-art technology and a well-established incident response process

Security Engineering

Enhance protection, detection, and response capabilities through the use of state-of-the-art technology and in accordance with industry benchmarks.

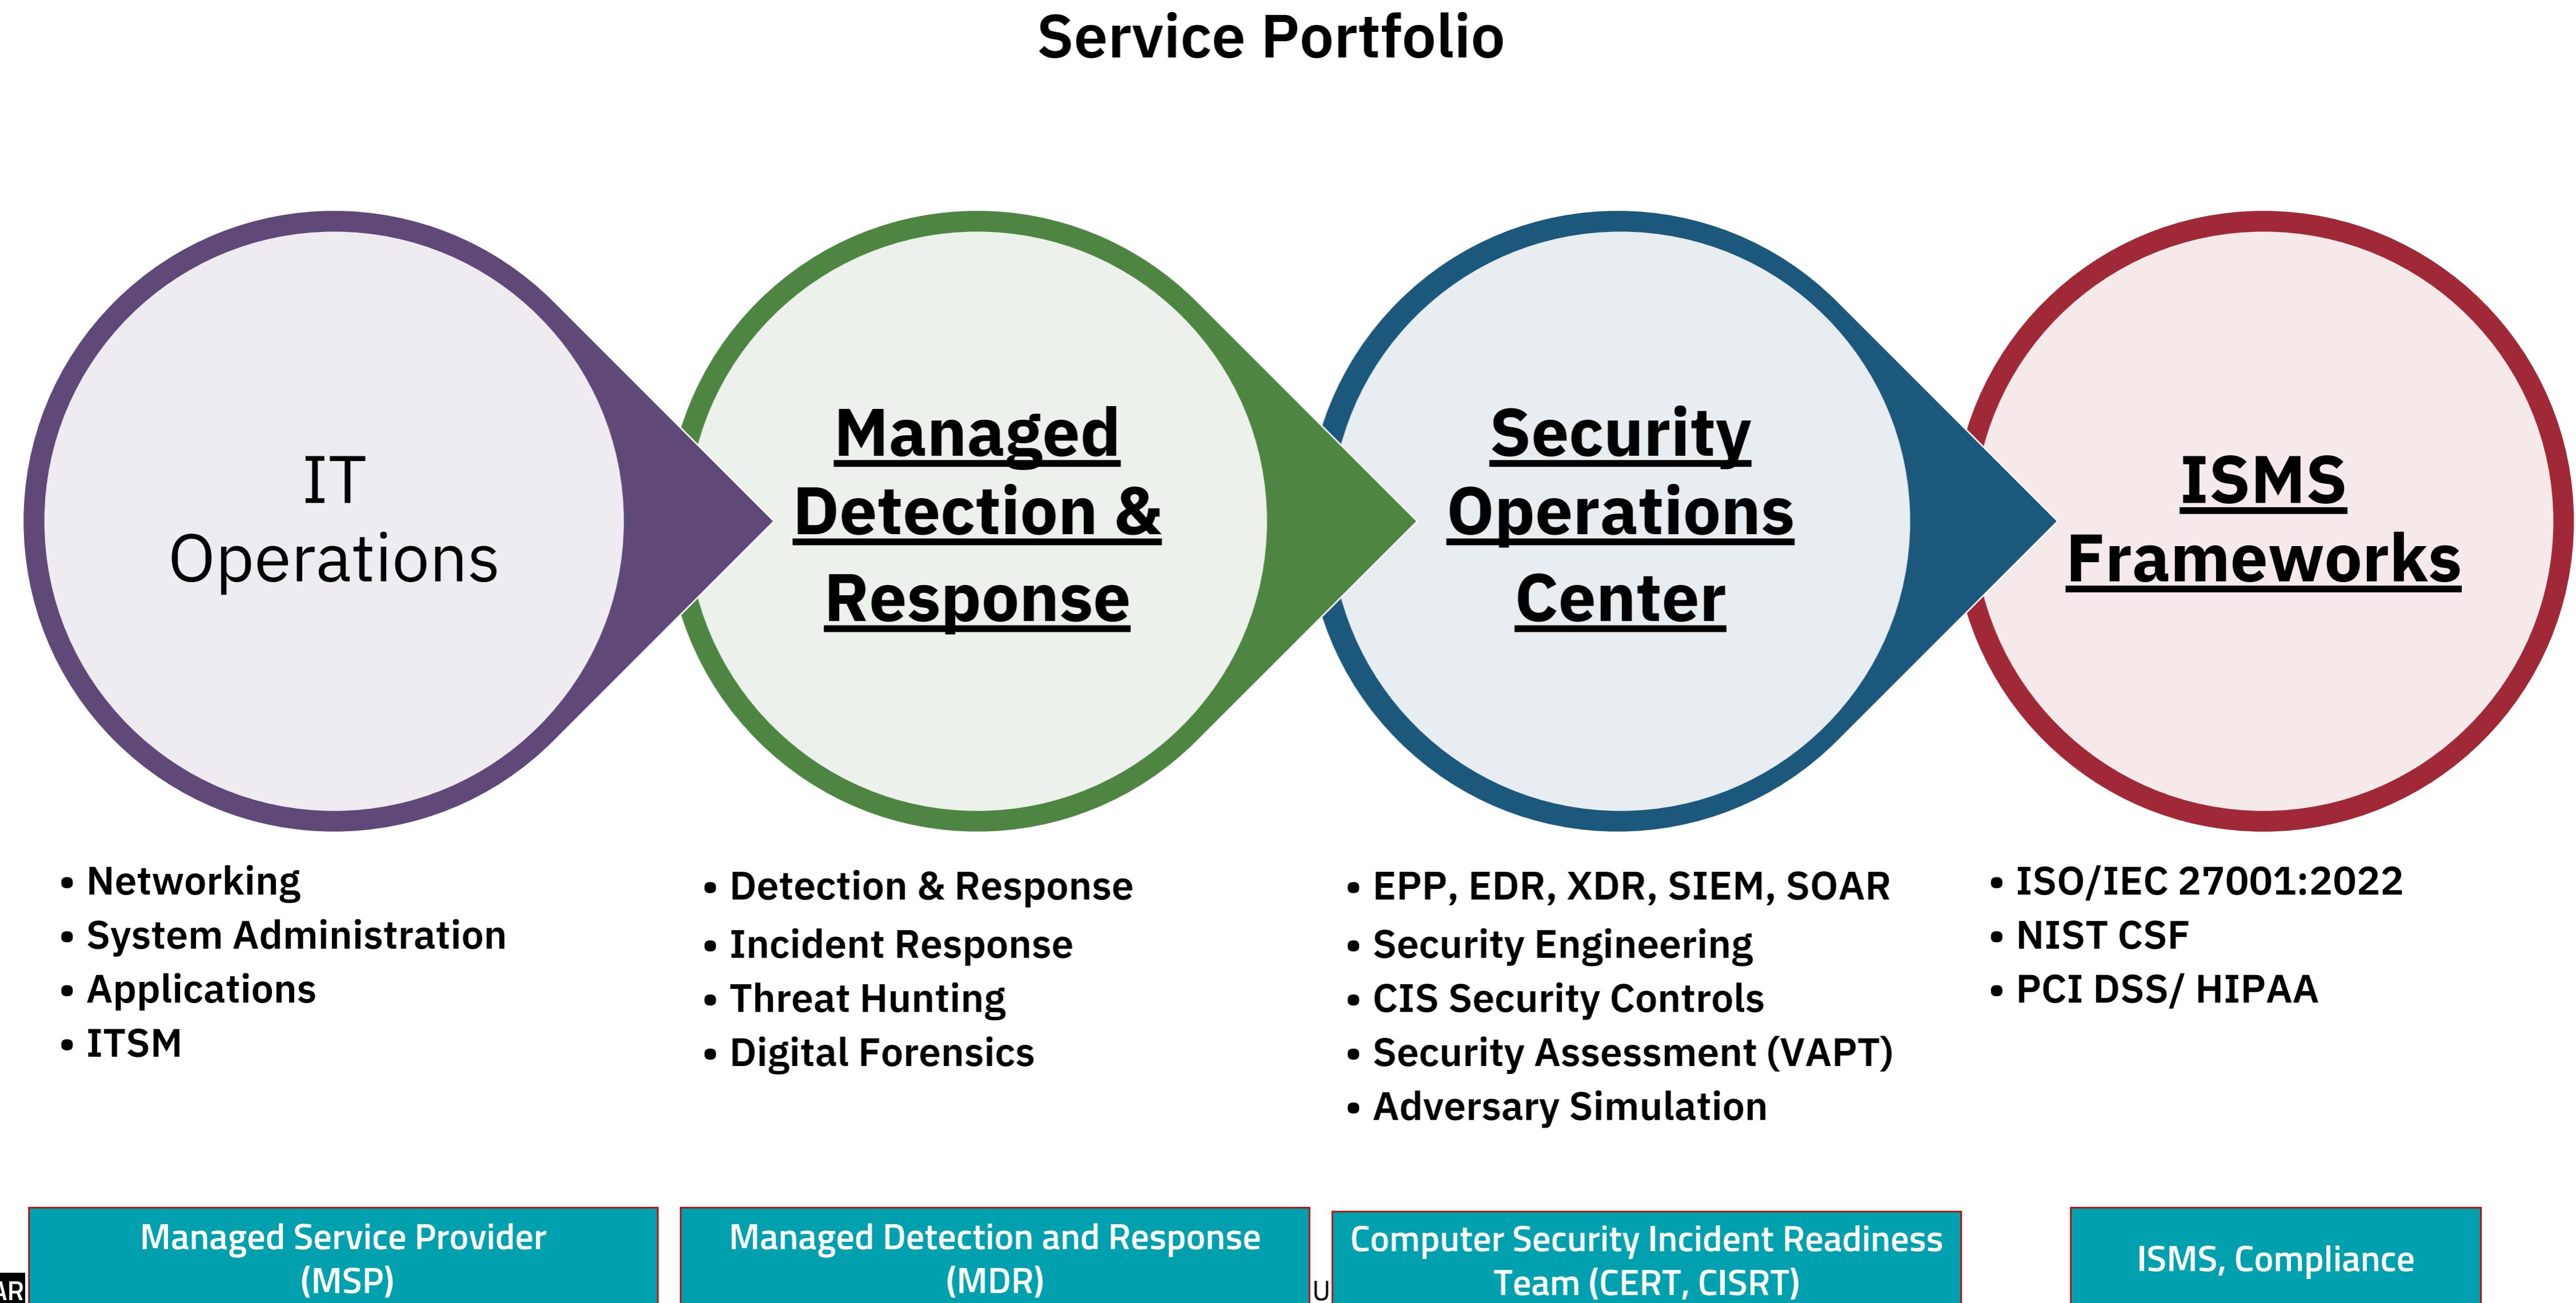

Security Assessment

Uncover vulnerabilities and exposures through a thorough testing methodology and real-world attack vectors.

Information Assurance

Assess risk factors and enhance cyber security program based on proven industry best practices.

IT Operations, Cyber Defense & Risk Management

Operation Team

Threat Detection & Response (MDR)

- Monthly SOC Reporting
- Customer Communication
- Partner Communication
- Daily / Weekly SOC Reports
- Log Source Management
- Detection Engineering
- SLA Tracking
- Case Management
- Alert Investigation
 - Triage
 - Escalation
 - Technology Maintenance
 - EDR
 - NDR
 - SIEM/SOAR

Operation Team

Cyber Fusion Team

- Adversary Simulation
 - Security Assessment
 - Vulnerability Scanning
 - Vulnerability Assessment
 - Penetration Testing
 - Adversary Simulation
 - Security Validation
- Advanced SOC Services
 - Digital Forensic
 - Incident Management
 - Training Programs
 - Consulting
- Solution, Assurance
 - Integration
 - Consultation
 - Control Assessment
 - Program Development
 - Training Programs
- Architecture & Engineering
 - Security Engineering
 - Platform Deployment
 - Cloud Security

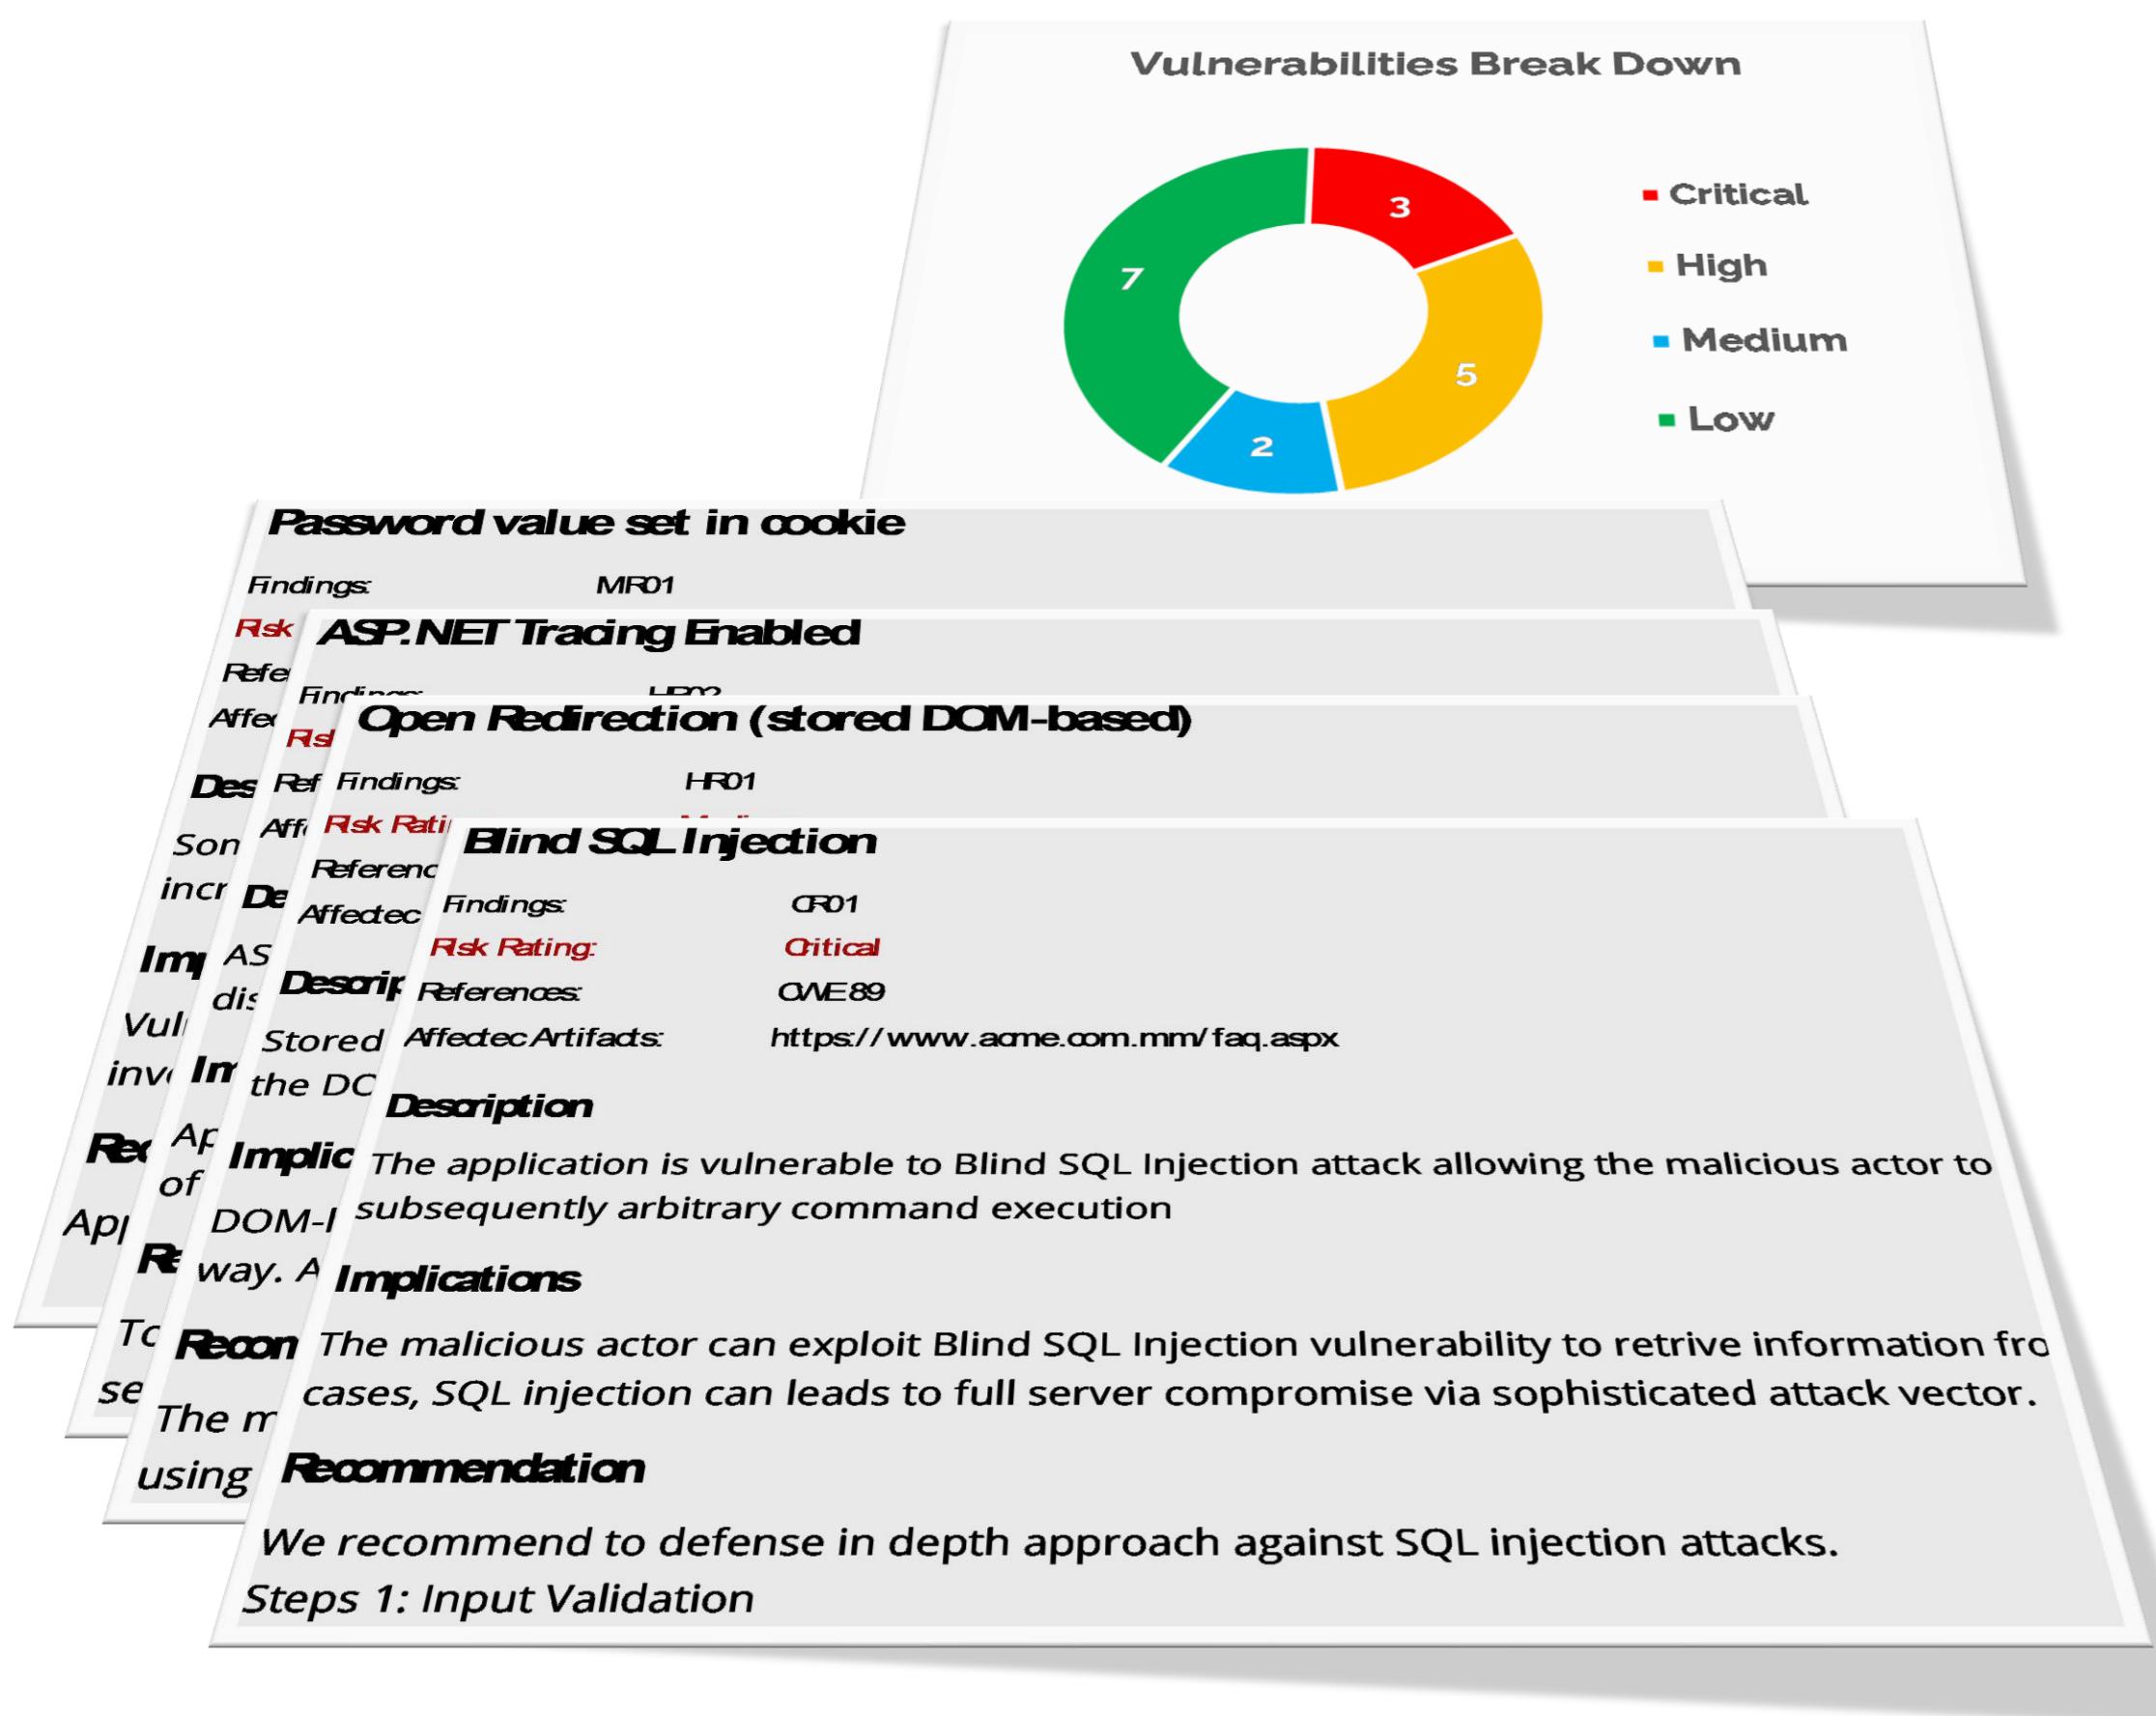

Professionals

A Team of skilled, experienced and certified professionals

- Certification Bodies
 - ISACA
 - (ISC)2
 - GIAC Certifications
 - Offensive Security
 - eLearn Security
- Engineer Certifications
 - CISSP
 - CISA
 - CRISC
 - OSCP
 - OSWE
 - GPEN
 - GCCC
 - GCFA

Security Assessment

Uncover vulnerabilities and exposures in the environment for timely mitigation

VULNERABILITY ASSESSMENT

Identify and prioritize security vulnerabilities in the environment to evaluate information security posture and remediate.

PENETRATION TESTING

Simulate a controlled cyber attack to evaluate the risk and adverse impact of malicious actors targeting the organization

VULNERABILITY SCANNING

Conduct active, continuous and semi-automated scanning to track vulnerabilities in the environment

Security Engineering

Enhance security measures & detection capabilities in the environment

NETWORK SECURITY

Implement Firewalls, WAF, IDS/IPS, SIEM/SOAR to deter attacks, identify intrusions, enhance response capabilities, isolate incidents, and minimize adverse impacts

HOST & ENDPOINT SECURITY

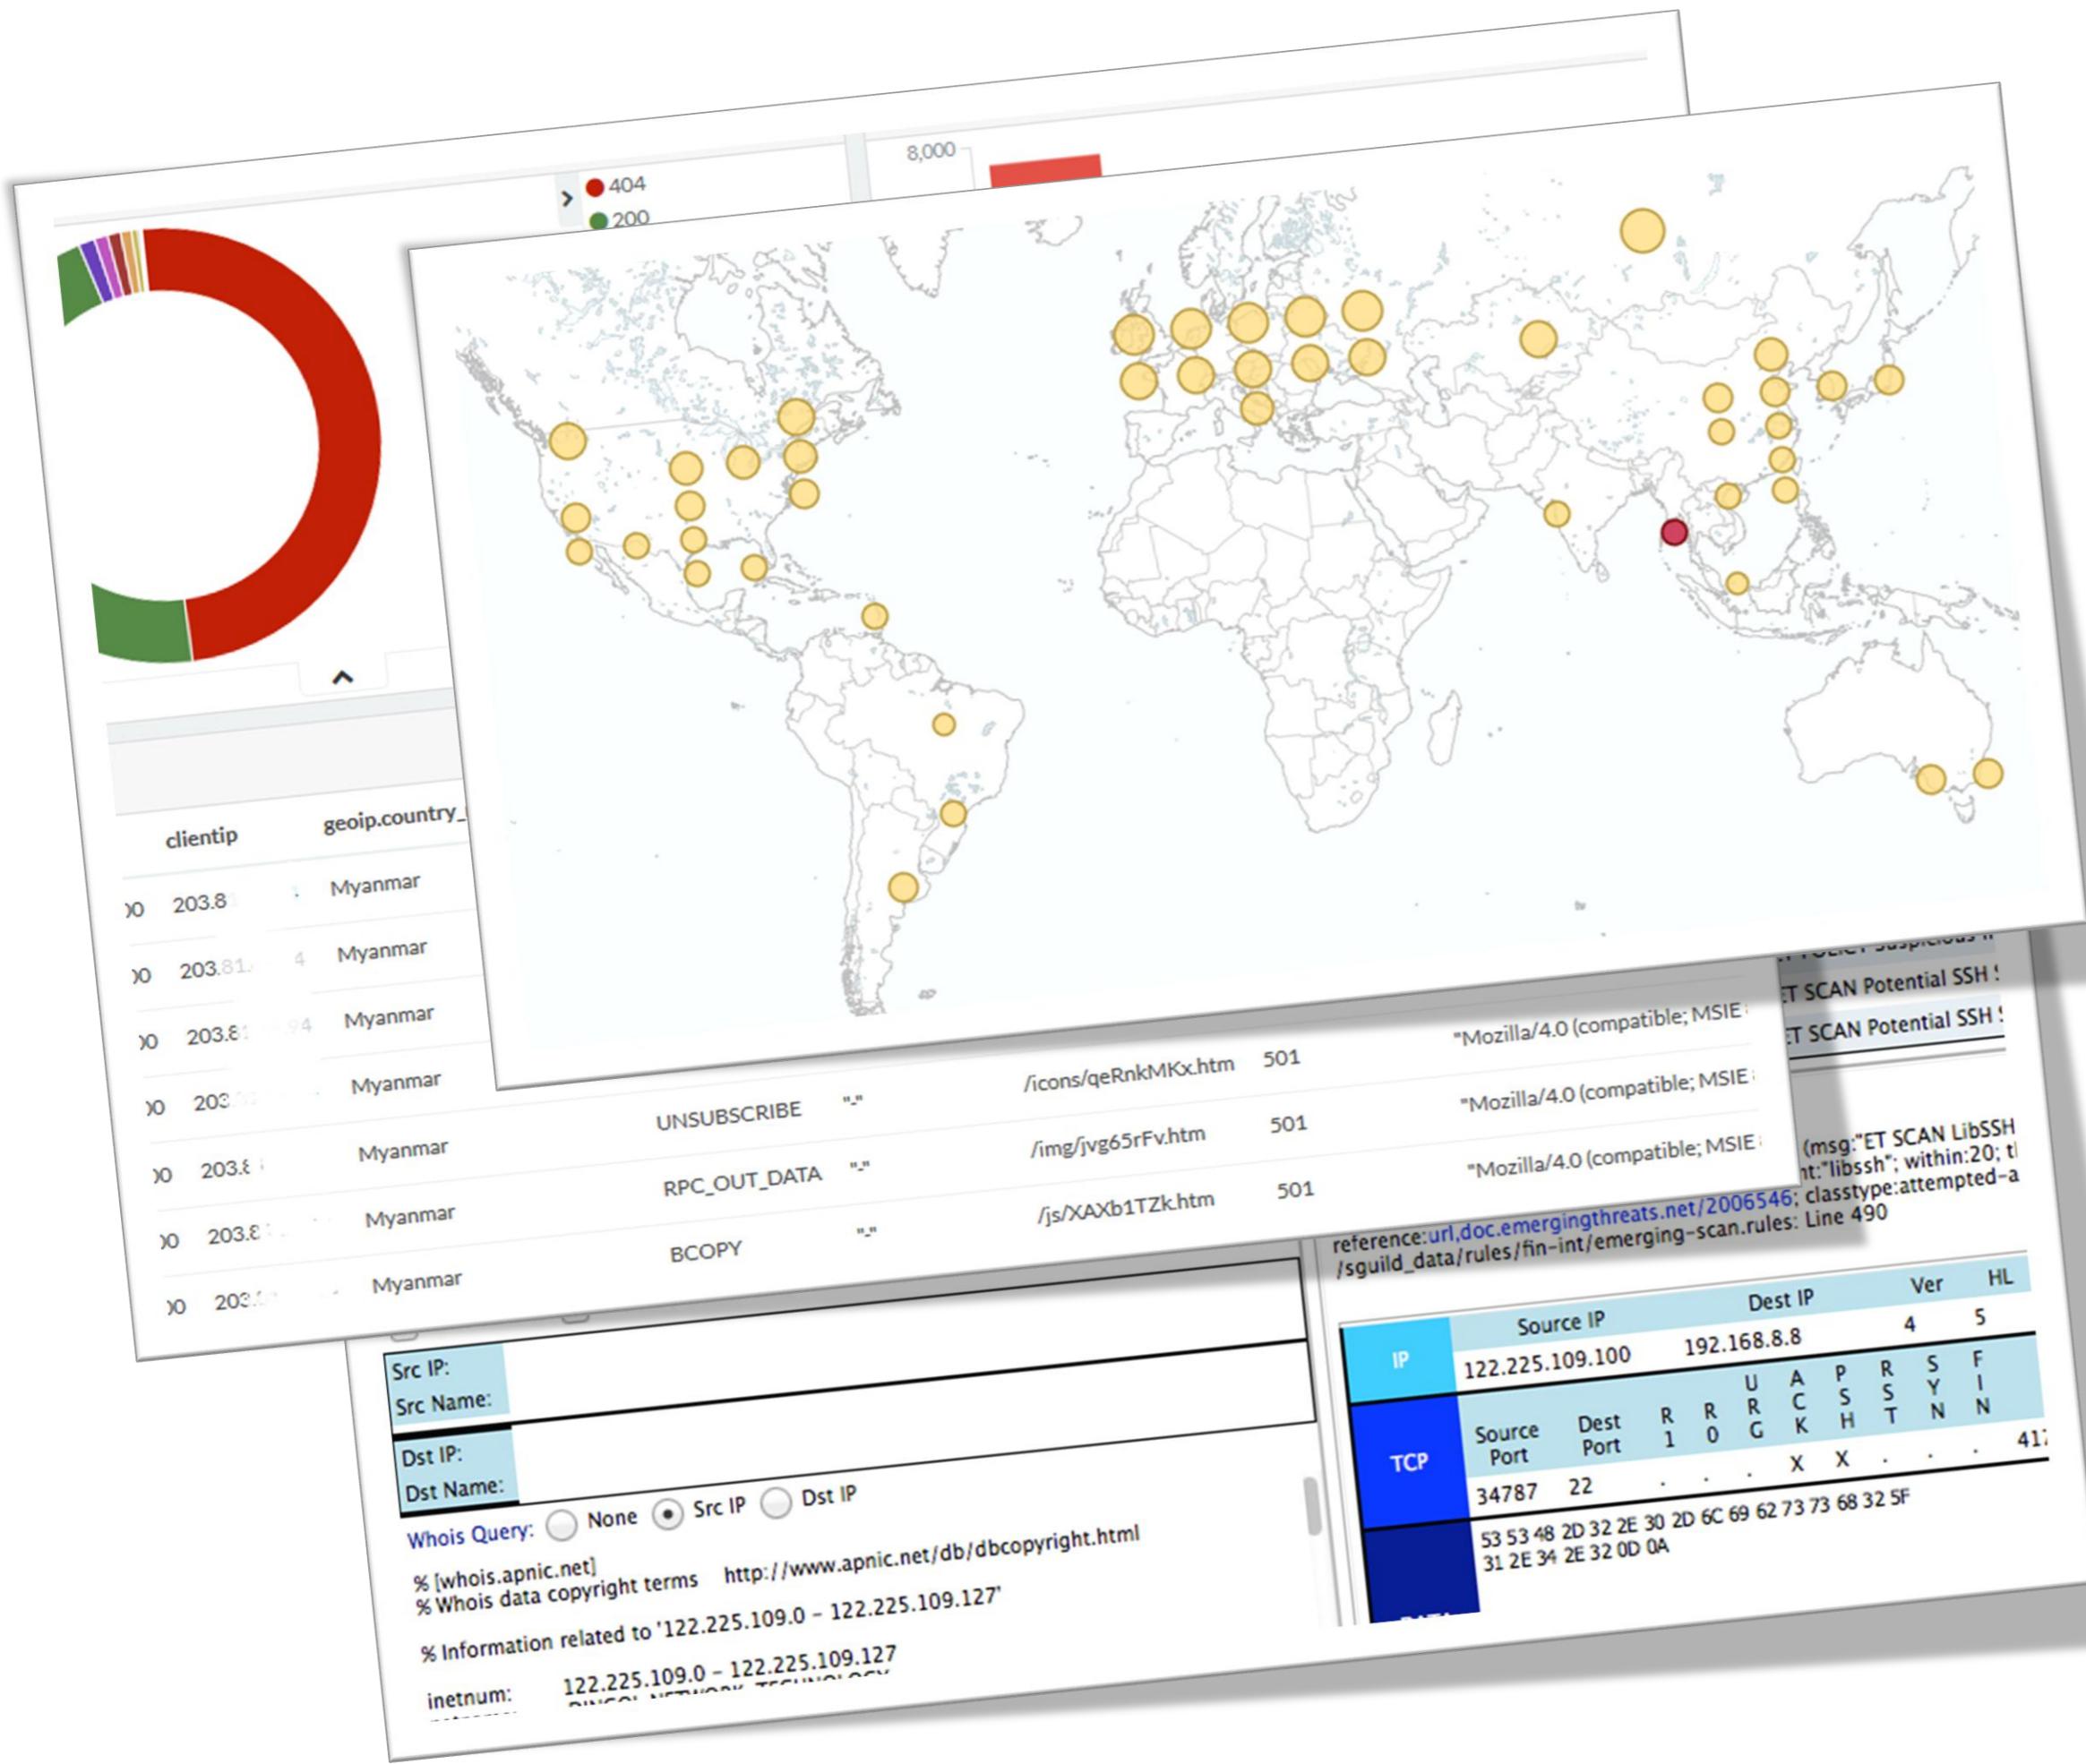

Harden Servers & Services, implement End-Point-Protection (EPP) & End-point Detection & Response (EDR), and Identity Management solutions to strengthen defense

VULNERABILITY MANAGEMENT

Implement tools and processes to actively identify, classify, track and remediate vulnerabilities in the environment in timely manner

Security Operations

Detect, respond & remediate cyber incidents per well-established process

SECURITY MONITORING

Analyze traffic, threats and anomalies to detect cyber attacks and incidents for relevant and timely response

INCIDENT MANAGEMENT

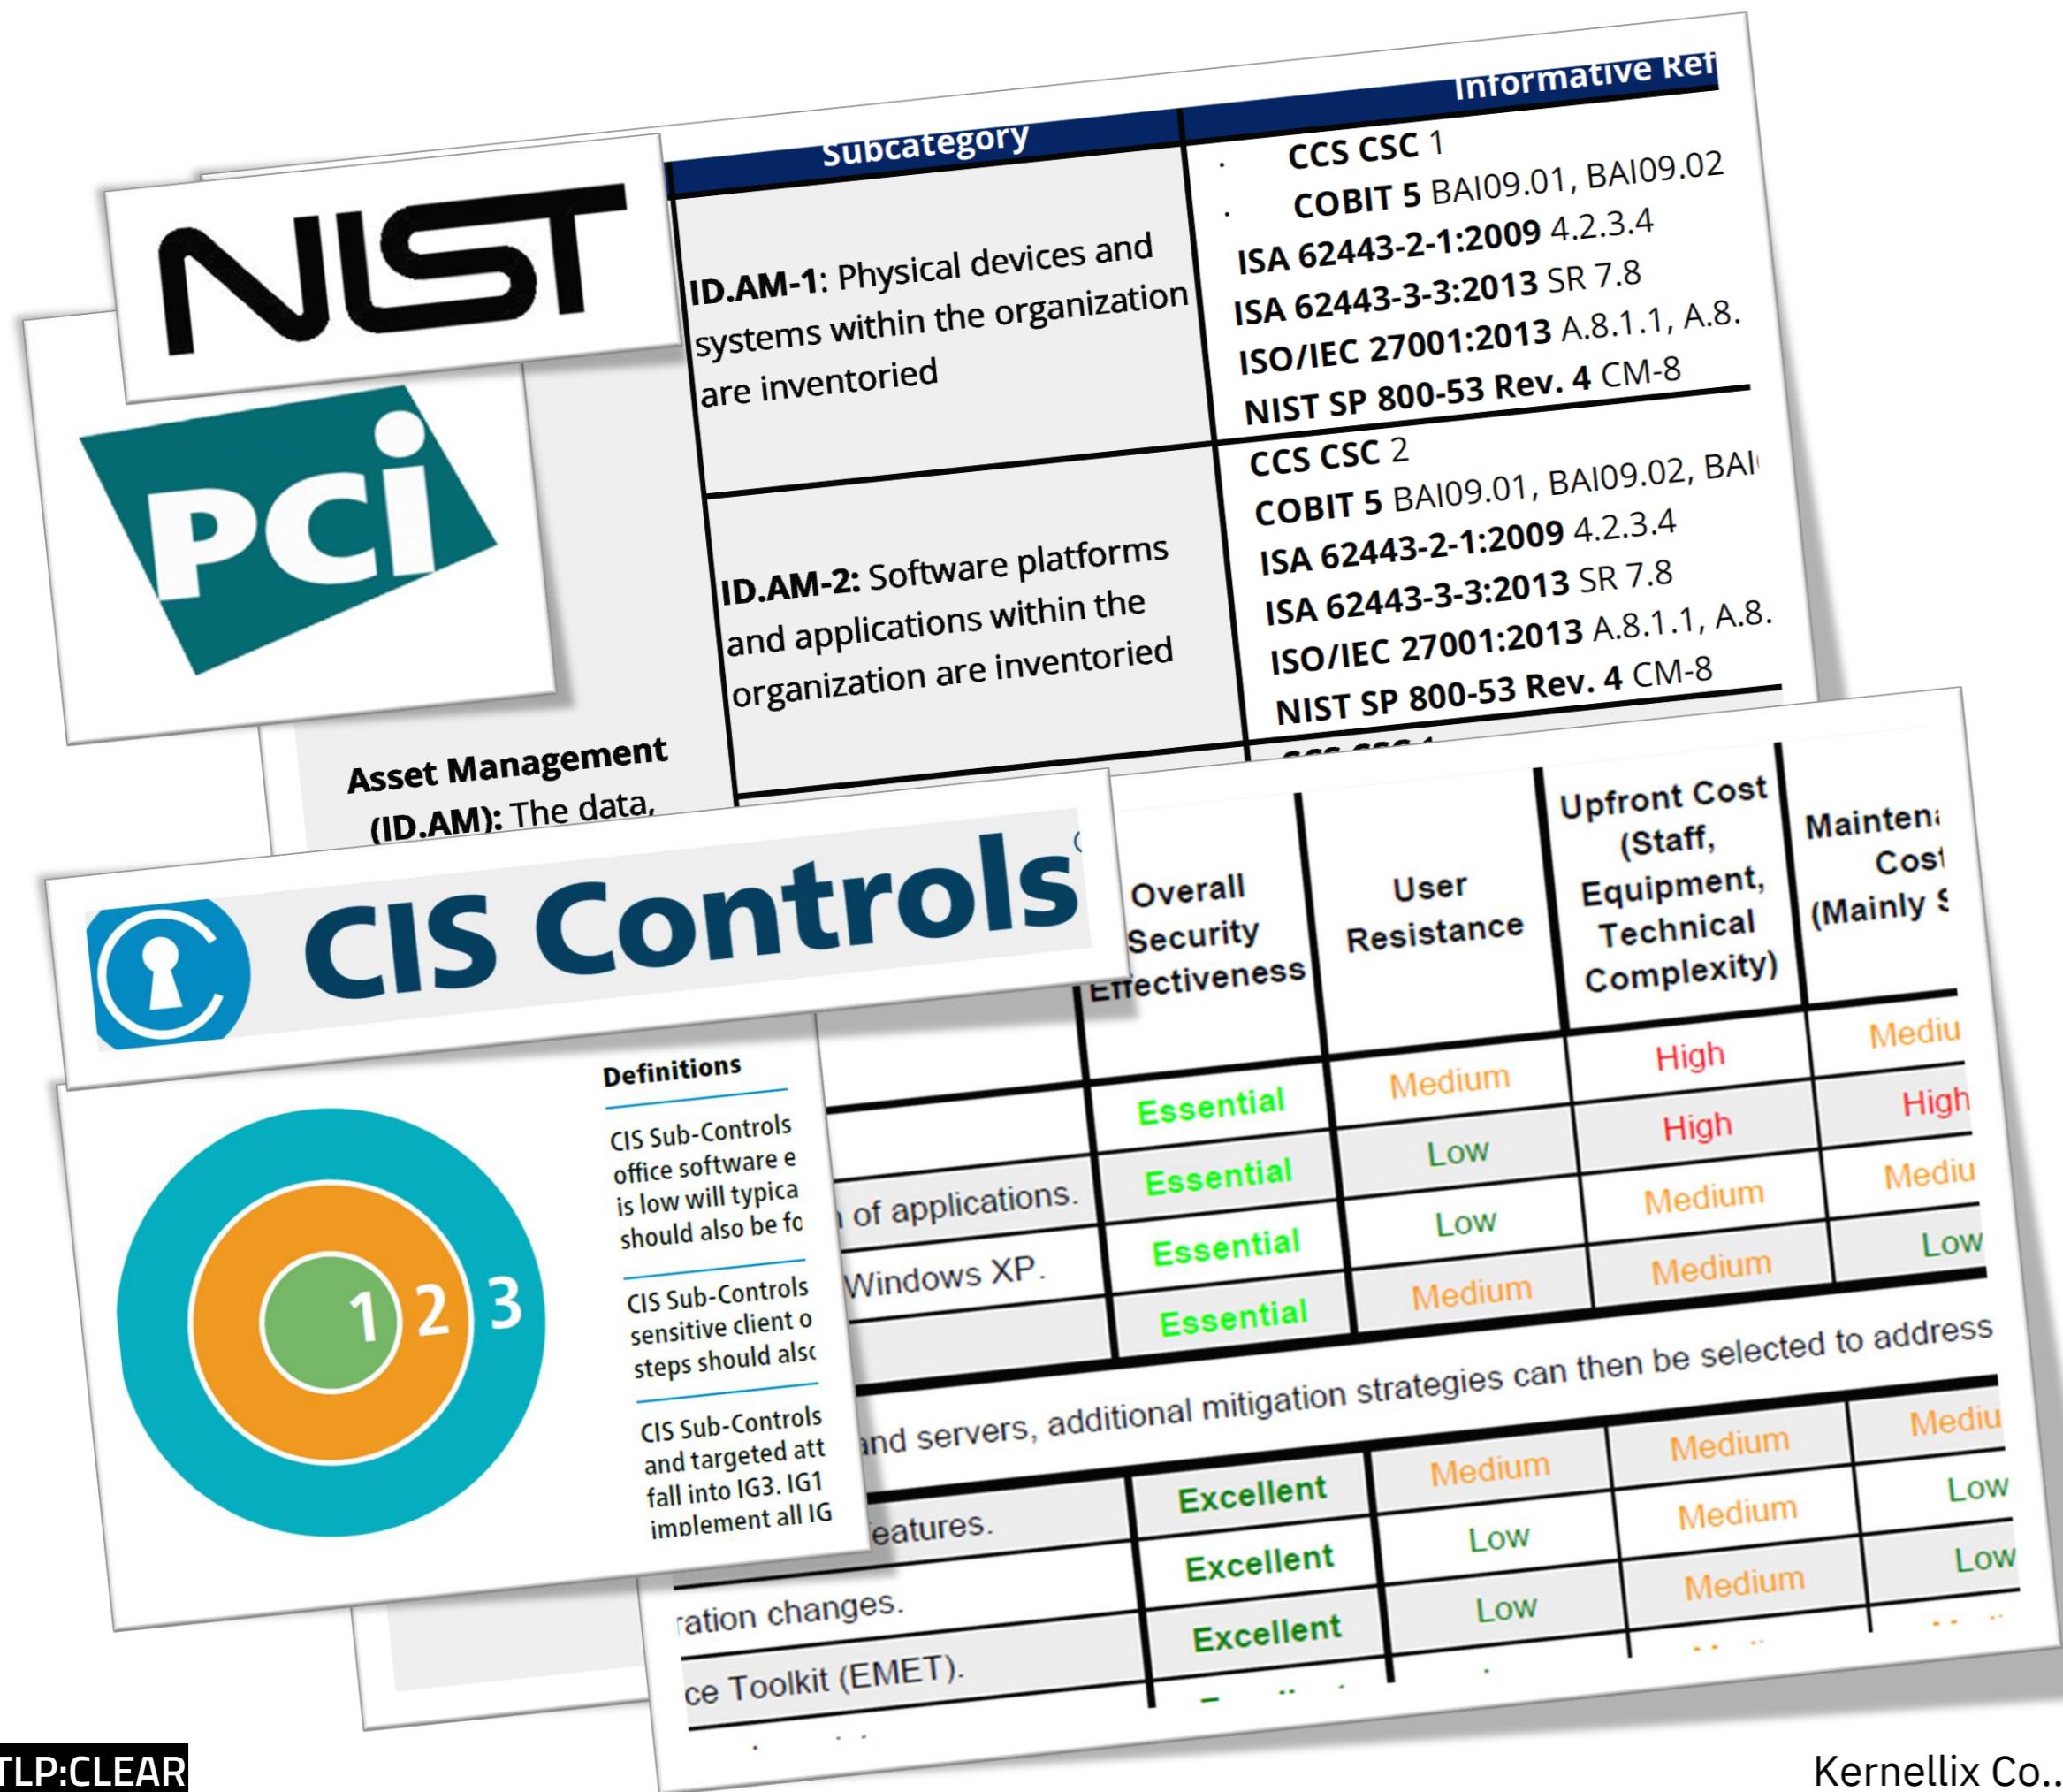

Detect, respond and resolve security incidents per sound and comprehensive cyber security incident response plan

THREAT INTELLIGENCE

An actionable cyber threat information to recognize and proactively respond to advance threats

Information Assurance

Assess risk factors & enhance security program per proven industry guidelines

CYBERSECURITY PROGRAM STRATEGY

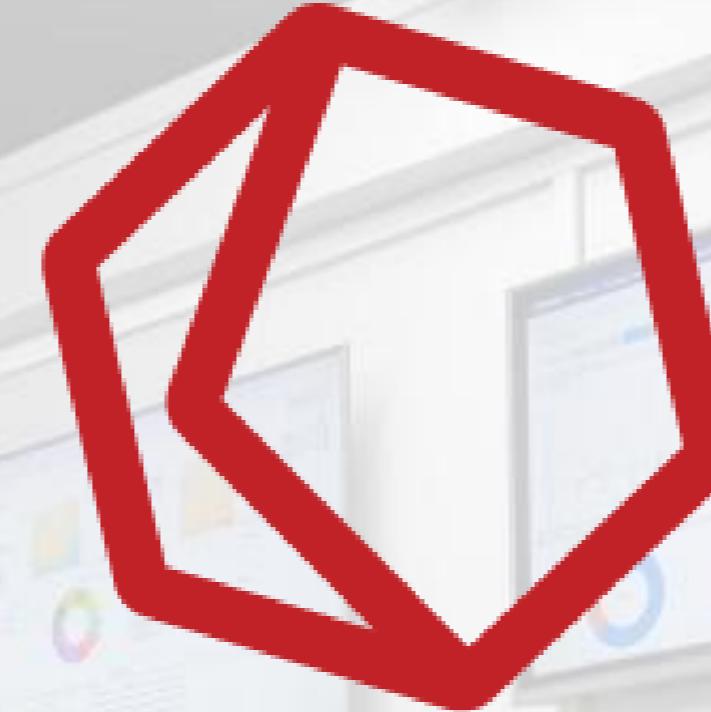

A tailored roadmap and implementation plan to align with industry standards and organizations' business objectives

CYBERSECURITY CONTROLS ASSESSMENTS & IMPLEMENTATIONS

Identification and analysis of assets, threats, vulnerabilities, controls and implementation of controls

INFO SEC AWARENESS & TRAININGS

A customized program to establish and maintain information security awareness and skill throughout the organization

kernellix

partner for secure and resilient cyberspace

MICT Park, Building 11, #04-506
Hlaing University Campus Road
Hlaing Township, Yangon, Myanmar
